What is a **Heuriger**?

In Austria, Heuriger (wine tavern) refers to the locality where wine is served. The Heurigen are open all day and offer hot and cold dishes all day long, especially specialties from the hearty Austrian or Viennese cuisine. The guest can usually get his food from the buffet or choose from a menu. For those not drinking wine will taste the excellent non-alcoholic grape juices or other beverages.

Since several years Heuriger Wieninger is achieving 95 out of 100 points in Fallstaff (most prominent wine guide in Austria) and thus secured this Heurigen No. 1 overall in Austria!
